

FERTILITY
CENTER

MEET OUR EMBRYOLOGIST

With nearly 20 years of experience in Assisted Reproduction, Karla Martin is a highly skilled Embryologist and Andrologist dedicated to advancing fertility treatments and patient care. As the Chief Operating Officer of LIV Fertility Center, she plays a pivotal role in leading operations and overseeing the IVF laboratory, ensuring the highest standards in reproductive medicine.

Karla holds a Master of Science in Reproductive Biology and Human Assisted Reproduction Techniques from the Universidad Autonoma de Barcelona and Instituto Universitario Dexeus, Spain. She also earned a Bachelor's Degree in Biology from the Universidad de Guadalajara and has completed postgraduate diplomas in Medical Genetics (Universidad de Valencia) and Health Law (Universidad Anahuac, Mexico City).

She is certified as an Andrologist and Embryologist by the American Society of Reproductive Medicine (ASRM) and has completed extensive training in assisted reproduction techniques, laboratory quality management, reproductive genetics, and bioethics. Her expertise includes egg and embryo vitrification, micromanipulation, assisted hatching, embryo biopsy, and in vitro culture.

Currently, Karla is furthering her expertise by pursuing a Master of Business Administration in Healthcare Management at Universidad Anahuac, reinforcing her leadership in fertility center operations.

Her dedication to innovation and excellence has made her an integral part of LIV Fertility Center since its foundation, where she continues to lead with passion, ensuring that every patient receives exceptional care on their path to parenthood.

Believe in Fate. Believe in Love. Believe in LIV.
